What's covered. Who's covered. How long.

Subject to the conditions and limitations listed herein, Turncraft warrants its composite railing products to be free from defective workmanship and materials and, when subject to normal and proper use, against surface peeling, rot, insects, splitting, corrosion, flaking, blistering, abnormal weathering or abnormal discoloration. This warranty extends only to the original purchaser and is not transferable. This warranty also does not cover the cost of installing any product, the cost of removing or disposing of any product, or the cost of installing any replacement product furnished under the terms of the warranty. The lifetime coverage of this warranty only covers Turncraft products used on freestanding, detached residential property where the owner resides, during the original owner's lifetime. The warranty coverage will be prorated from the date of the first owner's installation pursuant to the schedule below. The warranty period for products installed on property that is not freestanding, detached residential property where the owner resides, including but not limited to condominiums, apartment buildings, and rental property - or on property owned by other owners including but not limited to corporations, government agencies, partnerships, trusts, religious organizations and cooperatives will be twenty (20) years following the installation of the products and is limited to the original owner (non-transferable).
