

Customers claim:
"The TimeSaver cap and base
has cut our installation
time in half"

Introducing Turncraft's Builders Series Square 8" FRP Column

This new FRP column has been sized to 7 5/8" net width for use with our very popular square TimeSaver cap & base.

Available in 8'–9'–10' lengths.

Now you can have a very strong and durable square column with easy installation of our TimeSaver cap & base.

TimeSaver Cap & Base

By utilizing our TimeSaver cap and base this new FRP column will make this one of the easiest to install on the market.

Our TimeSaver cap and base simply slides into place and stays there thanks to our unique pressure tabs that perfectly center and hold the cap and base in place.

An optional neck ring is also included with the cap and base set.
