

TimeSaver Railing Adapter Bracket

Our Newest Addition

The Time Saver Railing adapter Bracket solves the age old problem of attaching a railing system to the decorative base of a round column. Simply use one of these new brackets to make an attractive attachment to any of our round Tuscan bases (8", 10" and 12"). With brackets available for our 8", 10" and 12" Tuscan bases, they come in two different heights to fit just about any railing system on the market. These brackets are perfectly contoured to create a smooth mounting surface with the base plinth. No notching or major modification to the base or lower rail is required.

TimeSaver Railing Adapter Bracket
made from
Recycled Fiber Reinforced ABS
(Acrylonitrile Butadiene Styrene)

- Made with **100% recycled** materials.
- Our Standard bracket is designed for the Turncraft Railing system and many other shorter profile railings
- Our Tall bracket will work with many taller profile railing systems, even railings with trim brackets.
