

**THE STYLE IS TIMELESS.
NOW THE COLUMN IS, TOO.**

Born out of the understated, practical tradition of the early 1900s Arts and Crafts movement, the square tapered column has become popular in modern adaptations of the the Craftsman, Prairie, Bungalow, Country and Mission style homes of today. Now this timeless style is available in expanded cellular PVC for quick, easy assembly and virtually maintenance-free performance!

PLAN TYPES

Craftsman Series are available in the following plan types. Please specify when you order. (Customer may specify actual returns, wall thicknesses, etc.) Plan O & N are available only as non-tapered.

PRECISION MITER JOINTS

Vertical edges of Craftsman shafts (tapered, non-tapered, pedestal and newel post styles) all incorporate the E-Z Lock miter joint for consistently straight miters.

PANEL STYLES

POLY-CLASSIC® CRAFTSMAN TAPERED SQUARE

Craftsman columns are available plain, or with three different paneled options: raised panel, "square corner" raised panel, and recessed panel. (Since all tooling used for routing the panels is done with round bits, there will always be some radius in the corners. The "square corner" style uses the smallest bit possible to minimize that radius - about 1/8".)

† Dimensions (except width) also apply to recessed panel shafts.
‡ Dimension shown is for standard shafts. On custom height columns the panels start 5 1/4" from the bottom.
* Actual shaft height is 1/2" less than shown.
Custom sizes may be requested, up to 24' in height, and up to 48" width.
