

# Colonial Tapered Round Ornamental Capitals

Designed with crisp, true architectural detail, ornamental capitals artfully capture natural themes and images. Capitals for wood Colonial columns are crafted from poly/resin material, providing a waterproof, strong, loadbearing product. These ornamental capitals are specifically for Turncraft's tapered wood Colonial column shafts. Each style is proportionally scaled for the diameter of the shaft when the shaft is trimmed according to the architecturally correct location on the astragal. See the diagram at right for determining where the column shaft should be trimmed. Due to this trimming, the overall height of the column will need to be adjusted by the "Height Adjust" value in the following tables.
